

General Information

Nara city lies in central part of Japan and can be reached via the Kansai International Airport by bus or train (it takes about 2 hours). Kyoto is located about 30km north of the Nara city.

The weather in Nara in mid-March is good but cold. Temperature is expected to be about 10°C in average, ranging from 4°C to 15°C.

The standard electricity condition is 100 V in voltage and 60Hz in frequency. In Eastern part of Japan (Tokyo, Chiba, etc.), the frequency is 50Hz.

Letter of Invitation

Official invitation letters may be issued upon request to facilitate participants attempting to get supporting funds, visas, permission, etc. to attend the Workshop. Please write to the Workshop Secretariat, specifying any special information that may be required. Please note these invitations do not imply any financial commitment on the part of the workshop organizers.

FIRST ANNOUNCEMENT

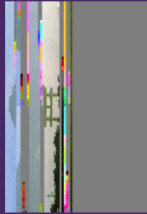

The 2nd International Workshop on Space Radiation Research

- Toward a Permanent Human Presence in Space -

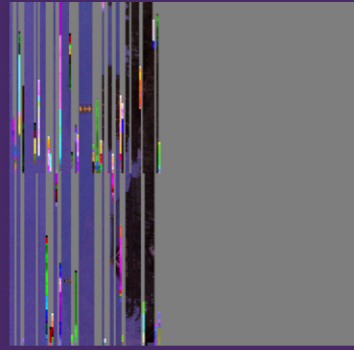

With

The 12th Annual NASA Space Radiation
Health Investigators'
Workshop
and

The 3rd Int'l NIRS Workshop on Dose-Effect
Relationship of Particulate Radiations

The workshop will be held at the Nara-ken Public Hall in Nara city. Nara was the oldest capital of Japan about 1300 years ago (A.D. 710-784) and Buddhism in Japan first flourished there. The city was the cradle of Japanese culture. Many historic architectures and artistic crafts in quiet atmosphere will make you feel peace of mind. Walking in the streets is like strolling through the pages of history.

Nara-ken New Public Hall
Nara, Japan

March 10(Sun)-15(Fri) 2002
